

## Clark Forklift Part

Clark Forklift Parts - Currently, there are over 350,000 Clark lift trucks performing worldwide, and more than 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized parts built for 20 distinctive models of lift trucks and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for all of their manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for production plant stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their products while minimizing costs. The contemporary value engineering program combines innovative product improvement and offers improved customer support and service within the industry.
