

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each and every global industry. Transporting industrial goods takes place each day on our industrious planet. Primarily innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread internationally.

Initially started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first lift truck. Over the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation with the industry. TCM started building forklift manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures various models of industrial lift trucks with over 50 years of accumulated expertise and technology, making their products recognized and used all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
