

Ingersoll Rand Forklift Parts

Ingersoll Rand Forklift Parts - Ingersoll Rand provides solutions, services and products to be able to ensure efficiency and increase the productivity within residential, industrial and commercial surroundings. They pride themselves in delivering products to improve the health, safety, comfort and security of people all around the world through their four global segments.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman makes refrigeration and food merchandising solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, building and contracting advanced controls, services and parts support for both commercial buildings and residential homes.

Ingersoll Rand's Industrial Technologies division offers products and solutions that enhance their clients' energy efficiency, productivity and operations. The product series is diverse ranging from pumps and tools, material and fluid handling systems to complete compressed air systems. They have even developed Club Car, the international leader in utility and golf vehicles meant for people and businesses.

Popular brands such as Schlage and Trane compromise the Residential Solutions business, providing efficiency, comfort and safety to home owners all across North America. Several of their innovative quality products include mechanical and electronic locks, indoor air quality solutions, heating and air conditioning systems, portable security systems, advanced controls and remote home management.

Ingersoll Rand' Security technologies provide products that ensure secure, safe and productive environments. This division's market leading products include floor and door closers, portable security devices, exit devices, electronic and biometric cabinet hardware, access control systems, steel doors and frames and locks, locksets and decorative hardware. Schlage even has products which offer personal, time and attendance scheduling systems.
