

Meritor Parts

Meritor Parts - The Meritor Business is a premier international dealer established upon 100 years of custom of quality and service. Meritor concentrates on integrated systems with several modules and components to the original machinery manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor promotes collaboration and innovation among a team of experienced experts.

By just employing future focused workers, Meritor strongly feels these top-caliber people would be able to rapidly adapt to changing surroundings and exhibit the performance and commitment needed so as to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all of their workers various opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, braking and suspension systems utilized for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is dedicated to ensuring optimum development at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is particularly situated in order to support new business development. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each part of the business. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and implement lean methods.
