

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the biggest independent spreader producer around the globe. They are a devoted manufacturer of spreaders used for a lot of different applications like for example the swop bodies, trailers, and handling of containers.

Engineering is done in house by means of making use of all of the most up-to-date FEM tools and CAD systems. The ELME business presently has more than one hundred twenty five employees. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The ELME product collection offers spreaders utilized for different container and trailer handling operations. A few of their inventory consist of: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders and a wide range of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by way of utilizing high quality parts in order to ensure dependability and top standards while offering competitive prices. Major features of ELME comprise design simplicity, market response and ground-breaking modular spreader concept.
